ABOUT JUNIOR NATIONALS

ABOUT JUNIOR NATIONALS

Junior Nationals is the largest longstanding annual multi-sport event for youth with a physical disability and/or visual impairment in the United States. The week-long national sport championship event is open to young athletes through the age of 22.

Sports include archery, powerlifting, swimming, table tennis and track and field. Exhibition sports are also featured and educational and social opportunities are provided for athletes, parents, coaches, and officials during the week. Junior Nationals is an avenue for young athletes to showcase their abilities through sport. The event is a platform to promote physical activity and independence. Athletes often experience heightened socialization, self-esteem and confidence and develop self-discipline and focus while training for and participating in the event. Additionally, the Junior Nationals can serve as a pipeline to international competition and the Paralympic Games.

HISTORY OF JUNIOR NATIONALS

Junior Nationals began in 1984 with three sanctioned events for wheelchair athlete's ages 7 to 19, and has grown over the years and now serves over 200 athletes annually with spinal cord injuries, cerebral palsy, visual impairment, amputations, dwarfism, limb deficiencies, and other congenital abnormalities. Participants hail from across the United States. The event has served over 5,000 youth since its inception and has helped family members and the broader community appreciate the possibilities that are opened up for these athletes as they showcase their athletic ability, hard work and determination. Junior Nationals is contested in a different city each summer.

Adaptive Sports USA is a 501 c 3 nonprofit organization.

EMPOWERING ATHLETES SINCE 1956.

CONTRIBUTION & BENEFITS

WHY ADAPTIVE SPORTS USA?

The Centers for disease Control estimate that there are nearly one million young people under the age of 22 in the United States with a physical disability. Within this population of young people, the CDC has found that youth with disabilities are twice as likely as their peers to be inactive and sedentary in their lifestyles, mainly due to the lack of equal opportunity.

Among this population, there is a 40% higher incidence of childhood obesity, diabetes and other critical health issues attributable to lack of opportunity to engage in active lifestyles.

Participation in recreational and competitive sports for athletes with disabilities has been shown to be a strong indicator of future success in education, career and life. Adaptive Sports USA has been at the forefront of providing those opportunities for over 60 years!

Adaptive Sports USA is a 501 c 3 nonprofit organization and national leader in adaptive sport. Since 1956, Adaptive Sports USA has been a gateway to regional, national and international competitions across the multi-sport landscape.

By encouraging mind and body development through sport, we empower athletes with a disability.

HOW TO GET INVOLVED?

We invite you to make an impact through a sponsorship pledge.

For more information about this and other sponsor and partner opportunities, please contact Executive Director Susan Rossi, at director@adaptivesportsusa.org or 719-439-3823. For the most up-to date information on programs and events, visit

CONTRIBUTION & BENEFITS

HOW WILL YOUR CONTRIBUTION MAKE AN IMPACT?

A contribution to the Adaptive Sports USA Junior Nationals will enhance the quality of the experience for athletes and help offset the cost of developing, planning, promoting and coordinating the event, which exceeds \$200,000. Your support will transform lives and help make the event a reality for athletes like Cheri Blauwet. *Cheri Blauwet sustained a spinal cord injury in a farming accident at the age of 16 months near her home in a small Iowa town. It wasn't until 8th grade that she discovered sports. She attended Junior Nationals and as a result learned how to travel independently and began to be her own person. Slowly but surely, she gained confidence, strength and agility. She went to three Paralympic Games, winning seven Paralympic medals and multiple international marathons. She is now a successful businesswoman, doctor, and mother and heavily involved in advocacy around adaptive sport.*

“Adaptive sports absolutely changed my life and shaped me into the person I am today. Looking to the future – we need to ensure that all young people with disabilities have these opportunities for growth and discovery.”

– Dr. Cheri Blauwet, Paralympian
